

EAGLE ALLIANCE

A safe healthy, sustainable society, realizing the full potential of nuclear technology

Eagle Alliance | 11921 Rockville Pike | Suite 100 | Rockville, MD 20825

Remember when **Uncle Sam** Needed **YOU !!!!!** **It's Our Turn!**

Our Mission: Through education, communication, and direct action, we want to induce the US to become . . .

World Leader in Nuclear Science and Technology

- Promoting updated research and standards on radiation health effects
- Openly discussing and methodically resolving major issues
- Fostering public understanding and support of nuclear technology
- Developing and implementing a cohesive nuclear technology strategy
- Establishing a simple, clear, risk-based regulatory regime

Responsible Manager of Nuclear Resources

- Establishing reliable, competitive domestic isotope production resources
- Developing facilities for safe, responsible disposal of low-level radioactive waste
- Establishing a program for permanent disposal of high-level radioactive waste
- Systematically consigning excess weapons plutonium to productive, peaceful uses
- Efficiently utilizing and recycling nuclear fuel resources

Champion of Nuclear Technology for World Health and Sustainable Development

- Developing and disseminating world-accessible nuclear medical technologies
- Broadly applying nuclear food safety technology
- Promoting global nuclear safety and security standards
- Developing a "world power reactor" with safeguard fuel cycle

Solidify public support for nuclear technologies

- Stressing importance of educating citizens and policymakers
- Obtaining and publishing data regarding the benefits of nuclear technology
- Keeping nuclear issues on the agenda of public discussions

We can talk all day . . . but what we need is action. If you share these views, make them known . . . learn more about how you can volunteer at:
